

Hello! My name is Angela Emili, and I am a recent Art Education graduate from Moravian College. I wanted to take a moment and introduce myself as one of your child's camp counselors. My passions include illustration and education of all grade levels of art from pre-kindergarten through twelfth grade. This summer, your child will be creating all sorts of amazing artwork! It

is my goal to integrate other subjects into the art room and teach students to solve problems creatively, which is a vital skill in today's world. My hope is for an enjoyable and creative summer of learning for your child at the Creation Station Kids' Summer Art Camp at the Art Establishment!
