

Ever since I was a kid, I spent all my time creating art work. Starting with drawing characters I saw on my favorite T.V. shows, to taking every art class that was offered to me in high school, to finding my passion for three-dimensional based work in college. My love for creating art has been one of the most important parts of my life. I grew up just blocks away from The Art Establishment and loved growing up on the South Side of Bethlehem. Next year I will receive my Bachelors of Science in Art Education from Kutztown University. My concentration is in Sculpture and I have had extensive experience with welding, wood working, painting, plaster, mold making, drawing, and textiles. I have spent the last year working with students from both Reading and Allentown, which has been a fantastic experience and has brought me even closer to living my dream as an art teacher.
